

Excellence, Right Where You Need It

TRA Medical Imaging is the community's source for convenient diagnostic imaging throughout the south Puget Sound. We are a local partnership of sub-specialized radiologists providing high quality, patient-centered care since 1943. TRA has combined compassionate, individualized care with leading-edge technology to offer the highest expertise and quality in medical imaging. Our radiology physicians, technologists, and staff provide our referring physicians and patients with excellence in care.

TRA Medical Imaging provides over 700,000 interpretations annually within eight area hospitals in the MultiCare and Franciscan health systems, 11 TRA operated outpatient imaging centers and numerous medical offices.

Assistance with your bill, setting up payment plan, and other financial questions you have **after** your exam.

TRA Medical Imaging

High Quality Care at Affordable Prices

TRA Medical Imaging

You Have a Choice

When it comes to medical imaging, you can choose where your exam is performed. While your health care provider may make a recommendation, where you schedule your appointment is up to you. Explore your options to make the most informed decision about your care. We think you will find that TRA Medical Imaging offers the most affordable, highest quality care in a welcoming environment.

Why TRA?

- We never charge a facility fee, which can raise the price of your bill.
- We negotiate lower rates with insurance companies. Independently owned imaging centers, like TRA, are often able to arrange lower rates than larger organizations.
- We offer flexible payment options, including same-day discounts or payment plans with no interest fees.

Price Estimates

Before scheduling your next imaging exam, verify with your doctor on the specifics of your exam, and consult with your insurer about coverage. Then call TRA at (855) 271-2416 to request an exam estimate. Our dedicated Financial Counselors can assist you with your specific needs.

Cost-Effective Care

With flexible payment plans, specialized and experienced radiologists, and with many convenient locations across the Puget Sound region, TRA is dedicated to providing you with the highest quality care, at a price you can afford.

We understand that some insurance policies do not cover every type of imaging service. To make sure you get the care you need, **TRA offers:**

- Competitive pricing
- Cash-pay discounts
- 12-month payment plans without finance fees or interest charges
- Financial assistance for eligible patients
- Financial assistance grant matching from a variety of health care entities
- Subspecialized and experienced radiologists
- Convenient locations throughout South Puget Sound

What to Know About your Exam Estimate

TRA Medical Imaging can provide cost estimates for the specific procedures requested. Many factors will influence the actual amount of the final bill, including whether your health care provider finds it necessary to perform more, fewer, or different procedures at the time of service. There may also be other services required, such as laboratory or pathology, resulting in additional charges. Because these factors must be taken into consideration, we can only provide estimates in ranges.

Financial Assistance

We are committed to the treatment of all patients, regardless of ability to pay. That is why we offer financial assistance to those who are eligible, based on the current Federal Poverty Guidelines.

If you qualify, our program offers:

- Financial assistance for services performed at any TRA-managed facility
- Sliding-scale fees based on income eligibility
- Payment plans
- Financial Aid Grant Matching

Qualification for a health insurance program will not bar you from participating in our financial assistance program. Our program may cover the deductible or coinsurance, if eligible, and may cover charges for participants not eligible for insurance.

Affordable Care Act

With national changes in health care, more people than ever before are eligible for low-cost or subsidized health insurance. Middle-income and low-income individuals and families generally qualify.

If you have not applied for this option, please visit the Washington Healthplanfinder website at: www.wahealthplanfinder.org.

Before you apply for financial assistance with TRA, we encourage you to first attempt to enroll in an insurance plan.
