

Thoracic Spine w/Contrast

Reviewed By: Justin Waters, MD

Last Reviewed: October 2023

Contact: (866) 761-4200, Option 1

General: If for myelopathy or multiple sclerosis, do with contrast

Sagittal imaging must extend through the facet joints into distal transverse processes.

All axial imaging should be contained within one sequence. If the images need to be angled, please angle within a single axial set of images as opposed to generating multiple axial sets with different angles.

Coverage: Axial images from T1-T12.

- Sag T2
- Sag T1
- Sag STIR
- Ax T2
- Ax T1
- Ax T1 post
- Sag T1 post
